SOUTH BEACH

A NEW VISION

“
*Nature isn't just beautiful.
Even in small doses,
it changes
the way we feel.*
”

This is the story
of a project told by the team
who created it.

From inception to realization,
this book is about an exceptional place
to live and
the values behind it.

1 Hotel & Homes South Beach

is 161 residences inspired

by the incredible beachfront

they're built upon.

But, the ocean's influence doesn't end

with the view.

Each home has been constructed

to bring more natural light,

sound and texture inside.

Inviting the calm of the beach

from the water's edge and

into the spaces we live.

A SIMPLE TRUTH

For me, 1 Hotel & Homes is more than a place to live. It's the realization of a dream. Nature has always been central to my life. I'm proud to say it's now central to my business. 1 South Beach is created around a simple truth — to recognize our impact on nature and nature's impact on us.

This truth determines the way we develop, design and do business. At a glance, it's a graceful twist of driftwood in the furnishings and the sound of the ocean in your living room. Looking deeper, it's a holistic approach to making everything more natural. It's a focus on simple changes that make life better.

1 South Beach encourages residents to stop and recalibrate. Live here and feel a drop in your blood pressure and a smile in your step. It's a place to relax and enjoy real time with your family and friends.

Welcome to 1 Hotel & Homes South Beach.

NATURE AND NURTURE

Talking about South Beach is like composing a movie: with several stories, plots, rhythms and harmonies, melodies, colors and backgrounds. The exuberance of the sea framing the landscape, the warm climate and the diversity of people make it very special.

My design sensibility and I are from Brazil. This is where I developed my obsession: the energy nature brings to a space. In South Beach, my focus was to remove the dividing lines between indoors and outdoors. It's an incredibly lush, textured place; all we have to do is open the doors and invite it in.

Large windows bring the sunlight into the room. Spacious and airy interiors let in the ocean breeze. We accented each environment with fixtures and fabrics that feel alive, stitching nature into the things we touch every day. When brought together, these elements create a comfortable and relaxing environment which asks to be lived in.

LIVING AT 1

Great investors are judged by their ability to identify great ideas. Before 1 South Beach was an incredible property, it was an idea that's time had come. Today, we have so many disposable experiences. They leave us with a longing to connect to things that are timeless. Nothing brings that into our lives like a living space that feels cared for.

I'm thrilled about the lifestyle 1 Hotel & Homes is bringing to South Beach. It's a natural way of life with all the energy, comfort and cool of Miami. These spacious, oceanfront homes range from large one-bedroom residences to spectacular penthouses—all designed to use less and mean more. Each home was created to emphasize the qualities of living in South Beach's best location, while celebrating nature through eco-friendly design.

Residences are graced with oversized windows and sliding glass doors that lead to expansive private balconies where the rising and setting sun can be enjoyed. The hotel's spectacular rooftop bar and sand-filled cabana lounges offer still more settings to relax and spend an afternoon—or linger through the evening. It's a totally new approach to living in South Beach.

IN THE BALANCE

As New Yorkers, we were surprised when we first came to South Beach. The city is as dynamic as nature itself. Here, different energies coexist and collide. Some people see it as a private escape, others as a high-energy social scene. This contrast of opposites is in the balance that defines the city; the relationship between nature and architecture.

This is why 1 South Beach is home to thoughtful and carefully crafted outdoor living environments. From our breeze swept lobby to our open air lounges and four distinct swimming pools, each space at 1 South Beach offers a different take on relaxing in South Beach. Whether you're seeking a secluded space to read a book or a lively rooftop pool with a bar and kitchen and panoramic views of downtown Miami, 1 South Beach's unique outdoor spaces offer it all.

Nature spills inside with architectural details inspired by the beach and ocean. A seamless link from indoors to out makes 1 South Beach a special place to unwind on our own, or in the company of friends. With this in mind, we designed the hotel grounds and interiors to compliment human nature.

FARM -TO- TABLE

When I opened Craft in 2001, the traditional thinking was the greatest chefs are supposed to make complex food. Our access to some of the best ingredients gave us the confidence to go against that. I wanted to cook simply and let the flavor of a fresh piece of fish or locally sourced steak stand on its own. I didn't know then, but this combination of quality and technique is what would make the farm-to-table movement so successful.

When you eat at 1 South Beach, you'll find fresh, seasonal dishes simply prepared and served in a comfortable atmosphere. But, what makes this project especially exciting is the focus on the best ingredients extends well beyond the kitchen. Everyone here is dedicated to discovering incredible raw materials and allowing them to tell their own stories. Throughout my career I've had deep admiration for the right ingredients. I'm glad to finally be able to bring this concept to South Beach.

THE CULTURE OF A PLACE

Living in South Beach for nearly 20 years, I've learned that there are many ways to see this city. 1 South Beach is in the center of everything that makes Miami famous, steps away from Lincoln Road, The New World Symphony and Miami Beach Boardwalk.

After all those years, joining the 1 South Beach team encouraged me to see Miami in a new way. I'd never realized the way nature affects the city's culture. It's the force that brings us outside and makes us want to stay there. Opportunities to enjoy the city's often overlooked natural spaces are also all around us.
